

Metropolitan Police Department

2022 Annual Report

Metropolitan Police Department | WASHINGTON, DC

PAMELA A. SMITH
Acting Chief of Police

WE ARE WASHINGTON GOVERNMENT OF THE DISTRICT OF COLUMBIA
DC MURIEL BOWSER, MAYOR

MPD Mission

It is the mission of the Metropolitan Police Department to safeguard the District of Columbia and protect its residents and visitors with the highest regard for the sanctity of human life. We will strive at all times to accomplish our mission with a focus on service, integrity, and fairness by upholding our city's motto *Justitia Omnibus—Justice for All*.

COMMUNITY POLICING & POLICE PATROLS

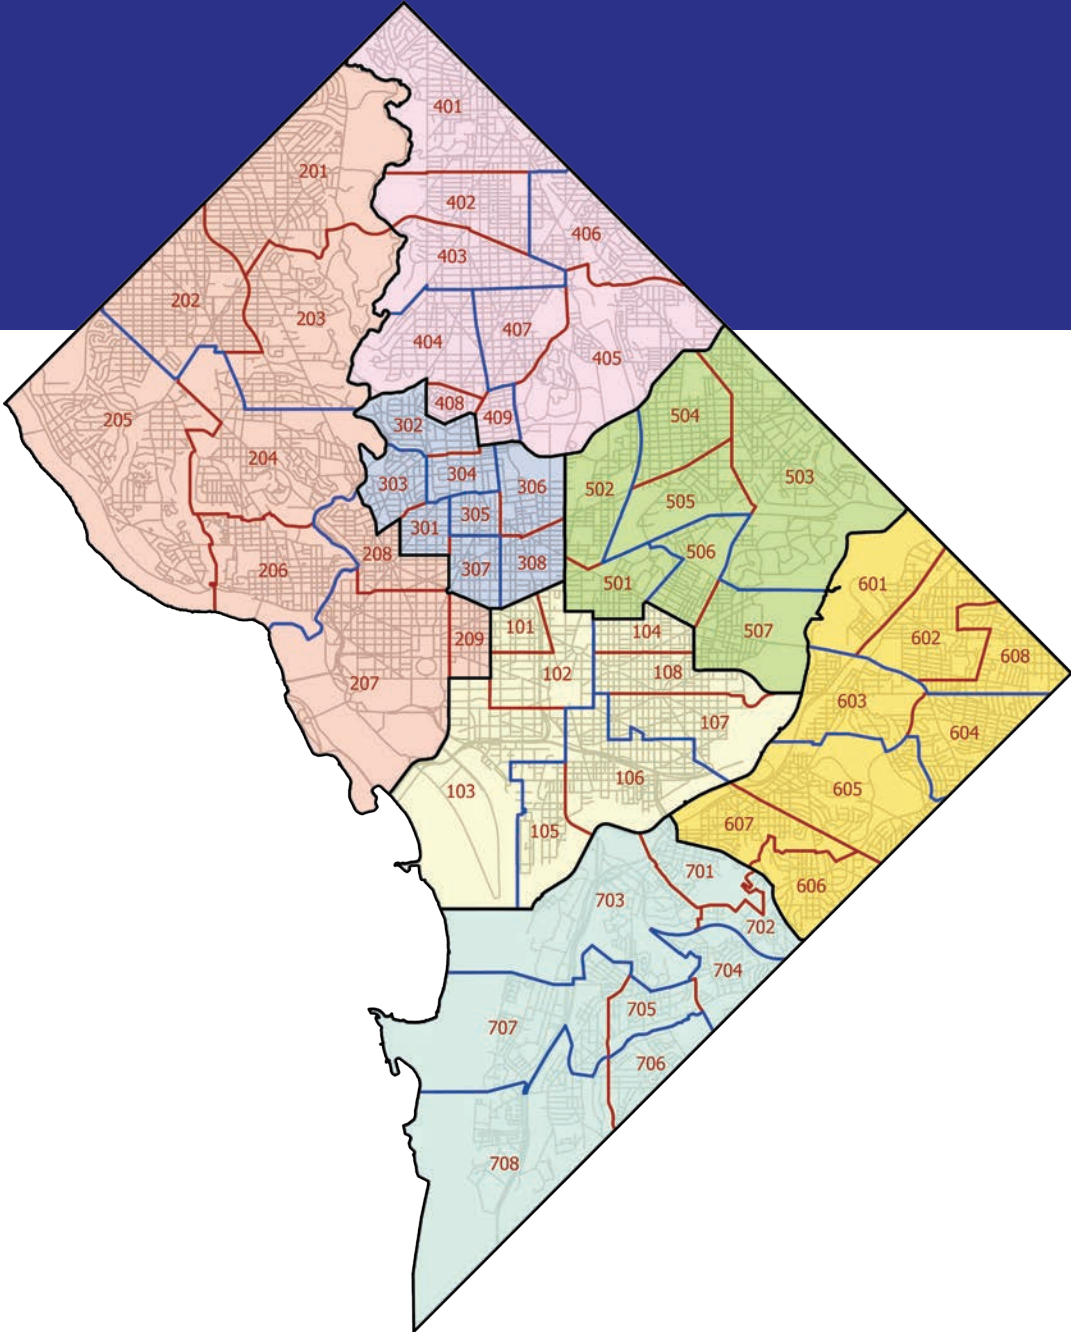

About Police Districts and Police Service Areas

There are seven police districts in Washington, DC, and each police district is divided into three sectors, which are groups of Police Service Areas (PSAs). There are a total of 57 PSAs in the District of Columbia. Each police district has between seven and nine PSAs.

Every resident lives in a PSA, and every PSA has a team of assigned police officers and officials. Through regularly-scheduled meetings, residents have the opportunity to get to know their PSA team members and learn how to work with them to address crime and disorder in their neighborhoods.

The Metropolitan Police Department holds regular sector or PSA meetings that are open to our residents, business community, and other stakeholders. We encourage our communities to take advantage of the opportunity not only to share feedback and ideas with MPD during these sessions, but also learn how we can all contribute to a safer public safety ecosystem.

2022 YEAR IN REVIEW

The Metropolitan Police Department (MPD) of the District of Columbia is committed to safeguarding the well-being of its residents and visitors through innovative policing efforts, exceptional recruiting strategies to address staffing issues, community outreach initiatives that foster connections between police and community members, and targeted youth programs aimed at providing positive outlets for at-risk youth. While there has been a significant level of public debate surrounding public safety and laws in the District of Columbia, one thing is certain—the Metropolitan Police Department remains committed to creating a safer, stronger DC.

From 2020 through 2022, the city has faced a range of challenges, including violent crime, property crime, and issues related to illegal firearms. The possession and use of illegal guns remain a top concern for the Metropolitan Police Department. While there was a slight decrease of two percent in fatal and non-fatal shootings last year, there is need for greater improvement. Over the past three years, shootings have been 30 percent higher than the pre-pandemic levels of 2019. While this is an alarming trend, the MPD is focused on removing illegal guns from the streets through intelligence-led policing. In 2022, the MPD recovered over 3,100 guns—a 36 percent increase over last year. Additionally, arrests for illegal gun possession rose by 34 percent.

The District of Columbia has seen an increase in violent crimes involving youth. There has been an 81 percent increase in the number of youths shot in

2022. There has also been an increase in the number of juveniles arrested for serious offenses, including carjacking.

However, the MPD remains steadfast in its mission to reduce crime and improve public safety for all residents. In response to the evolving nature of crime, the MPD is focused on utilizing innovative policing strategies. The Department is embracing cutting-edge technology and data-driven approaches to identify crime hotspots, patterns, and trends. This proactive approach allows officers to be deployed strategically and allocate resources efficiently, maximizing their impact on crime reduction.

A robust police force is essential to ensure public safety and maintain law and order in the District. However,

2022 YEAR IN REVIEW

like many urban centers, the MPD has faced personnel and staffing challenges. At the end of December 2022, the MPD had fewer than 3,400, marking a decline of 430 officers compared to 2019. These lower staffing levels have resulted in longer response times to crimes, which poses challenges to the Department's ability to meet its mission-critical functions. In response, the Department has undertaken exceptional recruiting efforts to attract highly skilled and diverse candidates to join its ranks.

Building trust and fostering positive relationships between law enforcement and the community is critical to effective policing. The MPD has invested in various community outreach programs aimed at bridging the gap between police officers and residents.

Recognizing the importance of early intervention

and positive engagement, the MPD has prioritized youth programs designed to provide at-risk youth with constructive activities and mentorship opportunities. These programs aim to divert young individuals away from criminal activities and towards a path of personal growth and development.

By examining crime trends, innovative policing efforts, personnel and staffing strategies, community outreach, and youth programs, the MPD is committed to creating a safer, more resilient, and cohesive community for all residents of the District.

Looking Forward

The Metropolitan Police Department has implemented many initiatives to address crime and engage the community. The Department will continue to be laser-focused on curbing violence,

Creating strong connections with young people in the community is a priority for the Metropolitan Police Department.

2022

YEAR IN REVIEW

particularly gun violence, but there is still much work ahead of us.

The MPD will continue to improve police services, expand outreach, and identify new ways to connect with our communities—especially our youth. Department efforts to recruit qualified men and women to join the department will grow.

Through community-focused patrols, intelligence-led policing, and strengthened community connections, the MPD and the District of Columbia will be in an even stronger position to further reduce crime—thanks to the hard work and dedication of our employees and our partners in the community.

CRIME IN THE DISTRICT OF COLUMBIA

DC CODE INDEX OFFENSE DEFINITIONS

Homicide: Killing of another person purpose-ly, in perpetrating or attempting to perpetrate an offense punishable by imprisonment, or otherwise with malice aforethought.

Sexual Assault: One of many sexual acts against another person, either forcibly or without his/her permission, and/or against someone who is otherwise incapable of communicating unwillingness.

Robbery: The taking from another person, or immediate actual possession of another, anything of value, by force or violence, whether against resistance or by sudden or stealthy seizure or snatching, or by putting in fear. This category includes carjackings.

Assault with a Dangerous Weapon (ADW): Knowingly or purposely causing serious bodily injury to another person, or threatening to do so. Weapons include, but are not limited to, firearms, knives and other objects.

Burglary: Breaking and entering, or entering without breaking, any dwelling, whether at the time occupied or not, with intent to break and carry away any part or any fixture or other thing attached to or connected with the same.

Theft/Other: This includes conduct previously known as larceny. The Theft/Other category excludes theft of items from a motor vehicle or the motor vehicle itself, which are captured under other categories, and excludes fraud.

Theft F/Auto: Theft of items from within a vehicle, excluding motor vehicle parts and accessories.

Stolen Auto: Theft of a motor vehicle (any automobile, self-propelled mobile home, motorcycle, truck, truck tractor, truck tractor with semi trailer or trailer, or bus).

Arson: The malicious burning or attempt to burn any dwelling, house, barn, or stable adjoining thereto, or any store, barn, or outhouse, or any shop, office, stable, store, warehouse, or any other building, or any steamboat, vessel, canal boat, or other watercraft, or any railroad car, the property, in whole or in part, of another person, or any church, meetinghouse, schoolhouse, or any of the public buildings in the District, belonging to the United States or to the District of Columbia.

| 0 | 2 | *** | 1 | 0 | -100% | 1 | 1 | 0% | 4 | 4 | 0% |
| 3,793 | 4,041 | 7% | 2,540 | 2,588 | 2% | 1,411 | 1,298 | -8% | 24,263 | 23,472 | -3% |
| 4,454 | 4,689 | 5% | 3,439 | 3,388 | -1% | 2,018 | -9% | 28,381 | 27,302 | -4% | |

These statistics reflect crime reports entered or migrated into the MPD RMS (Mark43) as of 1/1/2022. These numbers are based on D.C. Code offense definitions and do NOT reflect Part I crime totals as reported to the FBI's Uniform Crime Reporting (UCR) or National Incident-Based Reporting System (NIBRS). The statistics for this report are based on the various tables from the data warehouse as of the current refresh date. This report should be considered 'Preliminary' in nature. The reports are subject to change due to subsequent determinations related to amendments in classification, unfounded cases, or changes in offense definitions.

* Citywide totals include cases with "unmatched address;" therefore, the sum of all seven districts may be slightly lower than the citywide totals for some offense categories.

HOMICIDE ANALYSIS

HOMICIDE CLEARANCE RATE

| | 2018 | 2019 | 2020 | 2021 | 2022 |
|------------------------------------|------|------|------|------|------|
| Number of Homicides | 160 | 166 | 198 | 226 | 203 |
| Homicide Rate (per 100,000) | 23 | 24 | 29 | 34 | 30 |
| UCR Clearance Rate | 66% | 68% | 69% | 67% | 62% |

NOTE: The MPD's homicide clearance rate is calculated, as it is by most police departments in the country, using the Uniform Crime Reporting (UCR) guidelines established by the FBI in the 1930s. These guidelines are the national standard for reporting several categories of crime data, including homicide clearance rates. Under UCR guidelines, the clearance rate is calculated by dividing the total number of homicide cases closed in a calendar year by the total number of homicides that occurred in that year. The cases closed can be for homicides that occurred in the current year or in the prior years. Law enforcement agencies can clear, or "close," offenses in one of two ways, either by arrest or by exceptional means. nal circumstances, such as when the offender died.

HOMICIDE TREND

The total number of homicides in 2022 decreased 10 percent from 2021.

HOMICIDES BY MONTH

HOMICIDE ANALYSIS

YOUTH INVOLVEMENT

In 2022, there were 18 homicide victims 17 years of age or younger.

| | 2018 | 2019 | 2020 | 2021 | 2022 |
|---------------------------|------|------|------|------|------|
| Victims | 13 | 14 | 11 | 12 | 18 |
| Juveniles Arrested | 12 | 2 | 12 | 7 | 11 |

The term “juvenile” used above is defined as individuals 17 years of age and younger. These “juvenile” arrest totals include Title 16 cases where juveniles are charged as adults.

VICTIM PROFILE

| Victim | 2018 | | 2019 | | 2020 | | 2021 | | 2022 | |

| Stop/Stand/Park in Bike Lane | 605 | 3,011 | 1,179 | 3,399 | 1,082 |

CALLS FOR SERVICE

Answering and dispatching both emergency and non-emergency calls is the responsibility of the Office of Unified Communications (OUC), an independent District agency. Calls dispatched to MPD may be responded to in person by a sworn member or by the MPD’s Telephone Reporting Unit (TRU). During the COVID-19 public health emergency, MPD expanded the function of the TRU. For the information below, MPD pulls the Computer Aided Dispatch (CAD) call for service data from a data feed originating from OUC, which manages the CAD system for the District. The calls for service data provided in the data feed include Priority I, II, and III calls as defined below, which account for more than 99 percent of all MPD calls for service.

CALLS FOR SERVICE

Total Calls for Service” include all Priority I, II and III calls which MPD action is initiated. The response time metric reflects the “dispatch to arrival” time of MPD units. Calls received by the Telephone Reporting Unit (TRU) are included in MPD’s total calls, but are not included in response time.

| | 2021 | 2022 | Change 2021 v. 2022 |
|---------------------------------|-----------------------|-------------------------|----------------------------------|
| Calls for Service | 547,236 | 542,124 | -1% |
| Priority 1 Response Time | 7 minutes 1 second | 6 minutes 53 seconds | 8 second faster response time |

Calls for Service

DISTRIBUTION OF CITYWIDE CALLS FOR SERVICE

In 2022, Priority 1 calls made up 11 percent of all calls for service; Priority 2 calls made up 55 percent of all calls for service; and Priority 3 calls made up 34 percent of all calls for service.

Priority I, II and III Calls

Priority I calls involve circumstances where an imminent threat to the safety of persons or the potential for significant property damage exists resulting in a Code 1 [lights and sirens] response being authorized. These calls will be dispatched without delay to any available unit within the Police Service Area (PSA) or police district, including to officials and watch commanders if no other unit is available.

Priority II calls involve circumstances that require immediate dispatch and response, but most do not involve any imminent threat to the safety of persons or the potential for significant property damage. In the event such a threat is identified in any Priority II call, a Code 1 response can be authorized and it will be handled the same as a Priority I call. The dispatching of an MPD unit to a Priority II call shall not be delayed more than 15 minutes, at which time the dispatcher will advise the watch commander and the call will be assigned to any available unit.

Priority III calls involve routine requests for police services that involve no imminent threat to the safety of persons or the potential for significant property damage. The dispatching of an MPD unit to a Priority III call will not be delayed more than one hour, at which time the dispatcher will advise the watch commander, and a decision will be made on how to handle the call at that time.

RANKS OF THE METROPOLITAN POLICE DEPARTMENT

While every sworn member of the Department is a police officer by profession, he or she is further identified by rank. Members at any rank who have been trained to conduct investigations may be known as investigators or detectives.

- Cadet
- Recruit Officer (attending the Metropolitan Police Academy)
- Officer/Master Patrol Officer/Senior Police Officer
- Detective/Detective 1/Senior Detective 1
- Sergeant/Senior Sergeant
- Lieutenant
- Captain
- Inspector
- Commander
- Assistant Chief
- Executive Assistant Chief
- Chief of Police

SWORN PERSONNEL, BY RANK

Almost 80 percent of MPD's sworn members are officers or detectives. Executive Staff Personnel includes Inspectors, Commanders, Assistant Chiefs, and the Chief of Police.

■ Officers/Detectives (2,724) ■ Recruits (128) ■ Sergeants (390)
■ Lieutenants (141) ■ Captains (44) ■ Command Personnel (33)

METROPOLITAN POLICE DEPARTMENT AWARDS

Members are presented with awards throughout the year at regularly scheduled Crime Briefings. In 2022, 553 awards were presented. Of those awards, 505 Metropolitan Police Department members and 48 outside law enforcement agency members received the below awards.

- Achievement Medals (412)
- Lifesaving Medals (42)
- Medals of Merit (48)
- Meritorious Service Medals (2)
- Unit Citation Ribbons (49)

USE OF FORCE

The Metropolitan Police Department remains committed to the highest standards of constitutional, fair, and ethical policing. This Department takes seriously the authority and responsibility to use the force response that is reasonably necessary to bring a situation under control.

USE OF FORCE

| | 2018 | 2019 | 2020 | 2021 | 2022 |
|---|------|------|------|------|------|
| Intentional Firearms Discharges at Persons | 3 | 8 | 9 | 20 | 7 |
| Intentional Firearm Discharge - Fatal | 2 | 1 | 2 | 5 | 3 |
| Intentional Firearm Discharges - Injury | 0 | 4 | 4 | 11 | 2 |
| Intentional Firearm Discharges - Miss | 1 | 3 | 3 | 4 | 2 |
| Instances of Firearm Discharges at Animals | 6 | 4 | 3 | 1 | 2 |
| Accidental/Negligent Firearm Discharges | 2 | 3 | 6 | 5 | 0 |

CITIZEN COMPLAINTS

The Metropolitan Police Department (MPD) notifies the Office of Police Complaints (OPC) of all citizen complaints it receives, and the OPC determines which agency (MPD or OPC) will investigate the complaint, with the exception of criminal complaints. The MPD investigates all criminal complaints.

COMPLAINTS RECEIVED BY THE MPD and OPC

| | 2021 | 2022 |
|--------------|------------|------------|
| Open | 117 | 225 |
| Closed | 584 | 473 |
| Total | 701 | 698 |

In 2022, 698 citizen complaint cases were submitted to the Metropolitan Police Department (MPD) or the Office of Police Complaints (OPC). Some complaints involve more than one allegation and/or more than one officer, so the total number of Allegations of Misconduct and the total number of officers involved will not match the number of cases.

ALLEGATIONS OF MISCONDUCT

APPENDIX A

CCTV USE IN THE DISTRICT OF COLUMBIA

Through the use of Closed-Circuit Television (CCTV), the Metropolitan Police Department aims to enhance the safety and security of all residents. MPD utilizes CCTV to support a myriad of public safety operations in the nation's capital, including major events and emergency support.

The Department's CCTV software links with cameras from the Department of Transportation and other public agencies so detectives can get footage of a crime more quickly. The MPD currently has 332 crime cameras, including 22 mobile trailer units which can be placed around the city depending on need. Strict protocols and safeguards have been established for all MPD linkages with other publicly-operated CCTV systems; access to these outside systems is controlled by the agency that operates the cameras, not by the MPD.

As the nation's capital, Washington, DC is home to the White House, United States Capitol, and all three branches of the federal government. It is a destination for tourists from across the world, has over 170 embassies, and is a frequent rallying point for various First Amendment demonstrations. During major planned and unplanned events in the District, MPD activates the Joint Operations Command Center (JOCC) — including its CCTV system — to oversee communication and facilitate collaboration between local and federal law enforcement agencies. The decision to activate the JOCC is made at the discretion of the Chief of Police or his/her designee. The JOCC was activated 41 times in 2022.

In 2022, MPD implemented a new digital evidence management system — Genetec Clearance — to receive, process, and deliver CCTV video evidence from the 300+ MPD CCTV cameras to MPD investigators and other agency partners. This cloud-based system fully automates the delivery of CCTV video footage via a web-based self-service feature. The MPD investigator can securely share it with other investigators or partner agencies.

MPD also invites DC residents to participate in the Private Security Camera System Incentive Program, which offers a rebate for residents, businesses, and other institutions that purchase and install their own security system. The private cameras are then registered with Genetec Clearance's centralized camera registry. Over 23,000 entities have registered with this program to date.

In 2022, the CCTV program successfully handled over 4,700 video request cases. The new system ensures quick delivery of evidence and faster processing of cases, cutting processing time from an average of 12 hours in 2021 to six hours in 2022.

All MPD investigators are using this new platform for CCTV video retrieval. The CCTV team is currently working on several initiatives, including adding mapping-based request protocols and consolidating all CCTV video requests from outside MPD (such as FOIA, OAG, etc.) into Clearance. Going forward, the CCTV program will continue to strive to enhance public safety while ensuring privacy.

APPENDIX A

CCTV USE IN DC

JOCC/CCTV ACTIVATIONS

The following list details all activations of the Metropolitan Police Department's Joint Operations Command Center (JOCC) during the 2022 calendar year. During JOCC activations, the Closed-Circuit Television (CCTV) system is also activated. There were 41 JOCC activations in 2022, compared to 33 in 2021; 59 in 2020; 12 in 2019; and 14 in 2018.

Private Security Camera System Incentive Program

The Private Security Camera Incentive Program, administered by the Office of Victim Services and Justice Grants, encourages residents, businesses, non-profits and religious institutions to install security camera systems on their property and register them with the Metropolitan Police Department (MPD). This program is intended to help deter crime and assist law enforcement with investigations.

There are two ways to participate:

The Private Security Camera Rebate Program creates a rebate for residents, businesses, nonprofits, and religious institutions to purchase and install security camera systems on their property and register them with the Metropolitan Police Department (MPD). The program provides a rebate of up to \$200 per camera, with a maximum rebate of up to \$500 per residential address [e.g., home offices, condo buildings, and apartments] and \$750 for all other eligible addresses. The rebate is exclusively for the cost of the camera[s] including any applicable tax.

The Private Security Camera Voucher Program provides a private security camera system to eligible residents free of charge. District residents—either owners or tenants—who receive public assistance may be eligible to have a camera system installed at their home.

If you have questions about the rebate or voucher program, please visit <https://ovsjg.dc.gov> or contact us at security.cameras@dc.gov or [202] 727-5124.

APPENDIX B

FBI Uniform Crime Reporting Program: Migrating from SRS to NIBRS

Like most other jurisdictions, the Metropolitan Police Department (MPD) reports crime two different ways. Primarily, the Department reports crimes that are defined in the District of Columbia Criminal Code. This aligns with local law and statutes and is how officers classify offenses and make arrests. MPD also generates crime data using established guidelines that were developed by the Federal Bureau of Investigation (FBI) as the Uniform Crime Reporting Program, or UCR. Agencies participate voluntarily and submit their crime data either through a state UCR program or directly to the FBI's UCR Program. MPD reports directly to FBI, through monthly submissions of crime and arrest data.

In 2021, the Federal Bureau of Investigations (FBI) changed how it measures and reports Uniform Crime Reporting (UCR) data. The National Incident-Based Reporting System (NIBRS) captures all details of a crime incident—as well as on separate offenses within the same incident. Up to ten offenses can be captured within the same crime incident. In 2021, the historic Summary Reporting System (SRS) data collection was phased out.

To comply with the new mandate, on August 1, 2021, MPD launched the new Mark43 Record Management System (RMS) and began reporting individual crime incidents to the National

Incident-Based Reporting System (NIBRS). The FBI requires a full year of NIBRS data for publishing purposes. MPD's reporting system transitioned to NIBRS mid-year in August 2021, due to the mid-year transition, 2021 data was not published by the FBI UCR Program.

MPD's first full year of NIBRS data – for 2022 – is available on the next page. This data will also be available on the FBI website in the fall of 2023. While there is no comparative data for this year, MPD will include full-year comparative NIBRS data in future reports.

DC Code Index Offense vs. FBI UCR Data

In the day-to-day operations of the Metropolitan Police Department, the agency reports preliminary crime data as it is defined in the District of Columbia Criminal Code. DC Code and NIBRS data will not match because the crimes are not defined the same. Comparisons between MPD preliminary data as official FBI crime statistics under the Uniform Crime Reporting Program (UCR) may not reconcile due to:

- Statistical reported date
- Changes in classifications
- The determination that certain offense reports were unfounded
- Late reporting or the differences between NIBRS and DCR definitions

APPENDIX B

FBI Uniform Crime Reporting Program: Migrating from SRS to NIBRS

Looking for Comparative Data?

The Metropolitan Police Department (MPD) relies on the DC Code Index Offense information for daily operational and deployment decisions. The MPD has included DC Code Index Offenses in this Annual Report as this data correctly reflects these serious crime incidents occurring in DC and reported to MPD (see page 12). It also accurately matches the crime data statistics shared with the residents of the District of Columbia.

- To get current DC Code Index Offense Data, go to: <http://crimecards.dc.gov>
- To learn more about the Uniform Crime Reporting Program, visit: <https://www.fbi.gov/services/cjis/ucr>

APPENDIX B

FBI Uniform Crime Reporting Program: Migrating from SRS to NIBRS

| DC Code Index Offense (DCR) vs. FBI UCR/NIBRS Differences | |
|--|---|
| DC Code Index Offense | NIBRS |
| <p>MPD has historically reported DC Code offenses that aligned with the prior FBI UCR reporting. This focuses on an index of serious crime with consistent definitions, but does not represent all crime.</p> <ul style="list-style-type: none"> • Homicide • Sex Abuse • ADW • Robbery • Burglary – Breaking/entering • Motor Vehicle Theft • Theft F/Auto • Theft • Arson | <p>NIBRS is based on 50 'Group A' offenses and 10 'Group B' Arrest Data and records up to 10 offenses per incident</p> |
| DC Index counts are based on the Report Date Only | NIBRS counts are based on the Offense Date |
| Homicide offenses are based on 'Date Declared' | Homicide Offenses are based on 'Offense Date' |
| Records 1 offense per incident based on a hierarchy rule | Records ALL offenses occurring in an incident |
| Totals are counted regardless of the RMS report status (Draft, Pending Approved, Completed) | NIBRS ONLY counts offenses within the RMS Report Status of 'Complete' |
| Crimes Against Person and Crimes Against Property are counted per incident/event except for Homicide and Sex Abuse | Crimes Against Person are counted per person and Crimes Against Property are counted per incident/event |
| Homicide Clearances are counted per Victim | NIBRS Clearances are counted per event and only includes prior year offenses and clearances after August 1, 2021 |
| Assaults with a Dangerous Weapon (ADW) | Counts ADWs and Aggravated Assaults regardless if a weapon was used or not |
| Counts prior year offenses the year the offense was declared or ruled. Closures are added the year they were cleared | Any offenses before July 31, 2021 for which charge updates or clearances were added after August 1, 2021, will not be included in the NIBRS Totals. |
| Sex Abuse are counted per victim and reflects 1st and 2nd Degree Sex Abuse of adults and at-tempts of 1st and 2nd degree Sex Abuse | Sex Assaults are counted per victim and includes Adults and Juveniles. Sex Assaults offenses include 1st and 2nd degree as well as lesser Sex Assault offenses such as Fondling |

APPENDIX C

BIAS-RELATED CRIME IN DC

The Metropolitan Police Department (MPD) is committed to working with the community to address bias-motivated crimes in our city. All individuals – whether they are members of targeted communities or those who might commit a hate crime – should know that intolerance and hate crimes have no place in our vibrant city. While the District strives to reduce crime for all residents of and visitors to the city, hate crimes can make a targeted community feel more vulnerable and fearful. In order to combat hate crimes, everyone must work together not just to address specific allegations of hate crimes but also to consistently send a message that they do not reflect DC values. This report highlights the law in the District, recent trends in hate or bias-related crimes, and efforts in the District to address them.

Bias-Related Crimes Law

Under the Bias-Related Crime Act of 1989 (D.C. Official Code § 22-3700 et. seq.), a bias-related, or hate, crime is a criminal act or attempted criminal act that “demonstrates an accused’s prejudice based on the actual or perceived race, color, religion, national origin, sex, age, marital status, personal appearance, sexual orientation, gender identity or expression, family responsibility, homelessness, physical disability, matriculation, or political affiliation of a victim.”

It is important for the community to understand what is—and is not—a hate crime. First and foremost, the incident must be a crime. Although that may seem obvious, most speech is not a hate crime, regardless of how offensive it may be. In addition, a hate crime is not a specific crime; it is a designation that makes available

HOW DO I REPORT HATE CRIMES?

If you have been the victim of a hate crime, or believe you know of or have witnessed a hate crime, you can report this to MPD in several ways.

- Call 911, for any crime still in progress or that has just happened.
- Call or visit your local MPD district station.
- Call the Hate Crimes Voicemail at [202] 727-0500, which allows individuals in the District of Columbia to provide information regarding hate crimes anonymously. Please note that MPD may not be able to investigate the report as a crime if there is not enough information, so contact information for any follow up questions is helpful.
- Mail or email a written statement with the complaint that contains information to support a claim that the incident constitutes a bias-related crime. Statements may be sent to:

Hate Crimes Coordinator
Strategic Change Division
Metropolitan Police Department
441 4th Street, NW
Washington, DC 20001
or

APPENDIX C

BIAS-RELATED CRIME IN DC

to the court an enhanced penalty if prosecutors seek a bias crime enhancement. Prosecutors have the challenge of establishing, beyond a reasonable doubt, that a defendant was motivated by prejudice because of an actual or perceived difference.

In short, under the law, there is no specific hate crime but rather a crime demonstrating the bias of the offender. If a person is found guilty of a hate crime, the court may fine the offender up to 1½ times the maximum fine and imprison him or her for up to 1½ times the maximum term authorized for the underlying crime.

It can be difficult to establish a motive for a crime, and an offender may be motivated by more than one bias. Moreover, there may not be a bright line between

two possible types of classifications. For example, an anti-Semitic crime may target Judaism as a religion, Jewishness as an ethnicity, or Israel as a national origin. Therefore, we caution that the classification as a hate crime is subject to change as an investigation proceeds—even as prosecutors continue an investigation. The category under which it is classified may also be subjective.

Addressing Bias-Related Crime

The Metropolitan Police Department is a leader in the area of combating bias-related crimes. The Department works proactively to support consistent reporting and thorough investigations. The Department's strategy to address bias-related crime includes specialized community policing, enhanced officer training, strong data reporting, and robust investigations.

APPENDIX C

BIAS-RELATED CRIME IN DC

Several MPD units work together to ensure any potential hate crime reported to MPD is identified and investigated. Patrol is often the first unit to identify a hate crime and must note on a police report that there are possible hate crime indicators. Notification is made to the Special Liaison Branch so they can work with the victim and the community, and to detectives to conduct a thorough investigation into both the criminal elements and the possible motive.

Importantly, it is not up to a patrol officer to conclude whether a crime is motivated by bias but only to note that there may be hate crime indicators. Instead, all potential hate crimes are jointly reviewed by an MPD panel to ensure that cases are appropriately classified.

The Department recognizes that it can be difficult for victims to come forward or to report that a crime seemed to be motivated by bias, but we want to assure community members that our officers take every incident seriously and that they will be treated with dignity and compassion. If MPD is able to make an arrest, the case is presented to prosecutors, who then make their own determination on whether there is enough evidence to take the case to trial.

Special Liaison Branch

The Department's Special Liaison Branch (SLB) is a model for community policing in its work with historically underserved communities. For more than two decades, the SLB has worked closely with the

District's vibrant communities, in particular its African, Asian, Deaf and Hard of Hearing, interfaith, LGBTQ+, and Latino communities. The important work of SLB is carried out by its core members and affiliate officers. The core members are those assigned to the SLB who work on these issues full time. Affiliate officers have volunteered to receive specialized training on diverse communities, issues of importance in the community, and how best to serve them. The affiliates continue to work in their home district but receive coordinated support, information, and trainings through the Liaison Units. They also reinforce the messages of progressive training, policies, and procedures to officers throughout the Department.

A primary role of the Liaison Units is outreach to the represented communities. Although these communities have historically been underserved by law enforcement, this is not the case in the District. The Branch serves as a bridge to members of our larger community whose diversity contributes to the vibrancy of our city. The core and affiliate officers respond to crime scenes and incidents to support members of our community. MPD victim services specialists work with SLB and crime victims in its communities to support and connect them to non-police services. The SLB also works to support the community with incidents which are not necessarily criminal, such as helping to locate missing persons or with death notifications to family members. The Branch hosts and participates in meetings and presentations and provides the community with public safety materials and information that helps promote

APPENDIX C

BIAS-RELATED CRIME IN DC

a better understanding of interacting with MPD members in criminal and casual contact situations.

MPD works to improve the reporting of bias crimes in the community by providing outreach and educational sessions on the importance of reporting crime. For example, SLB members meet monthly with LGBT community advocates focused on violence prevention, speak regularly on Latino radio, and host presentations to and discussions with students about tolerance and safety. In addition to community-building and education efforts, the SLB

serves as a communication conduit between the police and the community every day. Members of SLB sometimes receive notification of potential hate crimes directly from the community.

The SLB also works to support reporting and tracking internally. In 2015, the Department implemented training for all of its members on bias-related crimes, which was delivered by an experienced core or affiliate officer of MPD's LGBT Liaison Unit. SLB members continue to provide cultural competency and hate/bias response training to all cadets and recruits, and

APPENDIX C

BIAS-RELATED CRIME IN DC

reminders are provided to all members at roll calls throughout the year. In 2020, SLB also provided a specialized detective training on hate crimes.

Bias-Related Hate Crimes Data

In recent years, divisive rhetoric and intolerance have fueled an increase in hate crimes nationwide. As a result, some of the most vulnerable communities in our city have been disproportionately impacted. Individuals continue to be targeted simply for their national origin, language, sexual orientation, race, ethnicity, or religion. The internet's connectivity has brought many benefits, but it has also enabled the wide spread of hateful ideologies and extremism. Tragically, places traditionally considered havens - like schools, places of worship, and government institutions - have also increasingly become sites of hate-motivated violence.

Based on crimes reported to MPD, hate crimes in the District decreased by 13 percent in 2022 when compared to 2021. Crimes motivated by bias against the victim's ethnicity/national origin decreased by 41 percent and crimes motivated by bias against the victim's race decreased by 50 percent. Despite overall decreases, two bias categories showed increases in 2022 when compared to 2021: sexual orientation, which increased by 18 percent, and gender identity/expression, which increased by 38 percent.

Data on hate crimes are also available on the MPD webpage (www.mpd.dc.gov/transparency). Summary data is posted monthly, and more detailed hate crime data, including the crime type, where and when a crime occurred, and the bias type, is updated quarterly.

MPD encourages people to report crimes involving a bias nature and provides a variety of ways to do so, including by calling 911 and also by using the Hate Crimes Hotline (202-727-0500). Crime victims may also send an email to hate.crimes@dc.gov

The District is not immune to the broader climate of escalating intolerance and extremism across the country. We recognize hate crimes pose a threat to the values of diversity and acceptance we hold dear. The Metropolitan Police Department is committed to working with all of the District's communities to combat prejudice and maintain an inclusive society where all people feel safe.

| Total | 14 | 29 | 20 | 42 | 36 | 39 | 22 | 25 | 21 | 24 | 16 | 7 | 14 | 26 | 21 | 8 | 8 | 7 | 8 | 9 | 14 | |

The figures reported comply with DC Official Code § 22-3700. Because the DC statute differs from the FBI Uniform Crime Reporting definitions, and includes categories not included in the FBI definitions, these figures may be higher than those reported to the FBI. All figures are subject to change if new information is revealed during the course of an investigation or prosecution.

Appendix D

Littering Enforcement in DC

Littering Enforcement in the District of Columbia

The Metropolitan Police Department (MPD) provides this report in compliance with the Anti-Littering Amendment Act of 2008, effective March 20, 2009 (D.C. Law 17-314, D.C. Official Code § 8-812). For more than a decade, MPD has been authorized to issue littering tickets and has monitored and reported on enforcement. However, unless an individual litters while driving a vehicle, they cannot be required to present identification to police. The result has been a system in which violators cannot be identified and default on more than half of the resulting non-traffic tickets. This, coupled with changing expectations of law enforcement, has led to a steady decrease in tickets issued to pedestrians. In 2022, there were no tickets written for general littering.¹ There were 21 tickets written for littering from a vehicle.²

TICKETS FOR LITTERING FROM A VEHICLE (NOIs) 2022

| Unit | Issued | Dismissed |
|--------------------------|-----------|-----------|
| First District | 3 | 0 |
| Second District | 2 | 0 |
| Third District | 3 | 0 |
| Fourth District | 1 | 0 |
| Fifth District | 8 | 0 |
| Sixth District | 0 | 0 |
| Seventh District | 0 | 0 |
| Other MPD | 1 | 0 |
| Other Police Departments | 3 | 0 |
| Total | 21 | 0 |

¹ In order to issue a ticket, an officer must personally observe the litterer intentionally or carelessly dropping rubbish, waste matter, refuse, garbage, trash, debris, dead animals or other discarded materials of every kind and description, on public space, in waterways, or on private property not under his or her control. The fine for this littering violation is \$75, with any appeals adjudicated by the Office of Administrative Hearings.

² District regulations also prohibit any person from disposing, causing, or allowing the disposal of litter from a vehicle upon any public or private property. Litter shall include all rubbish, waste matter, refuse, garbage, trash, debris, dead animals, or other discarded materials of every kind and description. The penalty for the offense is a \$100 fine, with any appeals adjudicated by the Department of Motor Vehicles.

APPENDIX E

CITIZEN COMPLAINTS

The Metropolitan Police Department (MPD) is committed to providing professional, high-quality services to all; MPD does not tolerate misconduct or wrongdoing on the part of its members. If you believe you have been subjected to, or witnessed, police misconduct of any type, MPD encourages you to report the incident to either MPD or the Office of Police Complaints (OPC). There are many convenient ways for you to file complaints, including in-person, over the telephone, or via mail, email or fax.

WHAT IS THE PROCESS ONCE A CITIZEN COMPLAINT IS MADE?

A complaint may be submitted to either the Metropolitan Police Department (MPD) or the Office of Police Complaints (OPC). The MPD notifies the OPC of all complaints it receives, and the OPC determines which agency (MPD or OPC) will investigate the complaint, with the exception of criminal complaints. The MPD investigates all criminal complaints.

1. When MPD receives a completed complaint, it is transmitted to OPC for evaluation and determination of investigative authority.
2. If a complaint is referred to MPD by OPC, the MPD official responsible for investigating the complaint contacts you to let you know he or she is investigating the allegation. If necessary, the official will obtain additional information.
3. The complaint is investigated: any available evidence is reviewed, and witnesses and officers (against whom the complaint is filed) are interviewed. The officers are entitled to know the complainant's name, if known, and the nature of the complaint. However, MPD will not reveal the complainant's name if the complainant requests to remain anonymous.
4. Investigation is completed and one of the following conclusions is made:
 - **Sustained:** A preponderance of the evidence supports that the conduct occurred and the member's actions violated MPD policy or training
 - **Insufficient Facts:** A preponderance of the evidence does not support that the conduct occurred
 - **Exonerated:** A preponderance of the evidence supports that the conduct occurred but did not violate MPD policy or training
 - **Unfounded:** A preponderance of the evidence supports that the conduct did not occur.
5. You are notified of the outcome of the investigation. If you do not agree with the outcome, you may appeal the decision in writing by sending a letter to the Chief of Police at:

Chief of Police
Metropolitan Police Department
441 4th Street, NW
Washington, DC 20001

APPENDIX E

CITIZEN COMPLAINTS

COMPLAINTS RECEIVED BY THE MPD and OPC

In 2022, 698 citizen complaint cases were submitted to the Metropolitan Police Department (MPD) or the Office of Police Complaints (OPC). Some complaints involve more than one allegation and/or more than one officer, so the total number of Allegations of Misconduct and the total number of officers involved will not match the number of cases.

| | 2021 | 2022 |
|--------------|------------|------------|
